WEATHER BULLETIN.
SIGNAL OFFICE, WICHITA, Kan., July 10.—The highest temperature was 92.5°; the lowest, up to 7 p. m. 82.5°; and the mean 80.5°. The wind was light, backing and veering from south to southeast. The weather was generally cloudless with more favorable conditions for rain. Local showers have helped the corn crop in certain vicinities but the farmers are praying for a general rain.

Last year on July 10, the highest temperature was 87.4°, the lowest 69.8°, and the mean 76.5°; and two years ago the corresponding temperatures were 87, 66 and 76.5, with no precipitation.

A FARMER'S TICKET.

The Atchison Alliance Places Candidates in the Field.
ATCHISON, Kan., July 10.—About sixty delegates, representing twenty-six organizations of the Farmers' Alliance and Industrial Union of Atchison county, met at Effingham yesterday and decided to put a full county ticket in the field this fall. A committee of seven members from the county was appointed to prepare the call and report at a meeting of the county Alliance and union to be held at Lawrence, Kan., August 15. The following delegates were elected to the state convention at Topeka, August 15: W. H. Tucker, R. F. Himes, H. H. Tulliver, J. Ham, Jesse Pickett and George Thompson.

The following officers of the county Alliance were elected for the ensuing year: President, A. J. Wiser; vice president, H. H. Tulliver; secretary, N. D. Kistler; treasurer, William Walker. The action taken in regard to placing a county ticket in the field was welcomed, as it was generally supposed by politicians that local matters, aside from the election of a representative to the legislature, would not be considered by the Alliance.

CAMPAIGNING IN SOUTH CAROLINA.

COLUMBIA, S. C., July 10.—The most important meeting of the campaign was held today at Sumpter, the home of Earl, the candidate opposed to Tillman. The Tillman faction brought over a thousand men from other parts of the state to capture the meeting. When Earl was introduced a scene began. For half an hour he faced the howling mob, unable to say a word. He was then rescued by his friends, who carried him to the rear of the hall. The Tillman faction then entered the hall and the meeting was continued. A general fight with firearms was expected. After the arrests the meeting was held.

MONTGOMERY COUNTY FARMERS.
INDEPENDENCE, Mo., July 9.—The Montgomery county Alliance and Industrial Union will have a grand picnic at Independence Saturday. The railroad will give reduced rates, and the largest gathering thus far in the history of the county has been in the city since the last presidential election. The county Alliance will be present. The county outside of Montgomery county that sends the largest delegation will be presented with a large flag.

A people's convention has been called for this county July 15. It is expected a full county ticket will be selected delegates to the state and congressional conventions. As the Farmers' Alliance is over 3,000 strong in this county, it is expected to cause great commotion in the party ranks.

COLORED REPUBLICANS IN REVOLT.

CHARLOTTE, N. C., July 9.—John H. Williamson, a leading negro politician at Raleigh, has sent out letters to leading negroes all over this state agitating the call of a race state convention at Raleigh in August. The letter says: "The negroes have the right to be heard in the management of the national administration has discriminated against our race; the same power has attempted to degrade our prominent men; and the attitude of white Republican leaders toward our race is such as to indicate that they no longer desire our support except as serving tools, and if they value the sentiment of their white Republican brethren, then we are no further desired as a Republican factor in the politics of this state."

CHOOSING MCKINLEY'S OPPONENT.

COLUMBIA, S. C., July 10.—The Democratic congressional convention in the sixteenth (McKinley) district met in Oree at 10 o'clock today and adjourned until the afternoon. There are several candidates for the nomination, among them being ex-Lieutenant Governor Warwick and Representative John E. Monnet, of Columbia, and Judge Stillwell, of Holmes. There is a disposition on the part of the party managers to give the nomination to a man of color, and it is feared that unless a wise selection is made, Major McKinley's prominence and popularity may overcome the Democratic majority in the district. This argument is for Monnet.

SOUTH DAKOTA INDEPENDENTS.

HURON, S. D., July 10.—The Independent convention adjourned after putting a ticket in the field. H. L. Loucks, president, was nominated for governor and B. L. Venable, of Yankton, for lieutenant governor. The combination in favor of Hardin for congress failed to work and Fred C. Zipp, of DeSmet, was named. W. E. Leavitt, of Lincoln county, carried off the congressional plum. Frank Roberts, of Milbank, was nominated for treasurer, and Captain Love, of Hixon, for auditor. H. W. Hanson, of Harvard, was nominated for secretary of state, and S. W. Cossard, of Gettysburg, for attorney general.

BISMARCK NOT OUT ENTIRELY.

BERLIN, July 10.—Prince Bismarck, notwithstanding the influence he exerted in the Friedrichshagen yesterday with a number of anecdotes, among which was the story of Count Herbert Bismarck's life being wrecked in the Franco-Prussian War by a watch which he had given him. A shot struck Herbert in the breast, but the watch which was in a pocket underneath prevented the bullet from piercing his heart.

One of the visitors remarked that the chancellor was looking well, and he replied that that was due to the fact that he was able to hold aloof from politics altogether. If he had retired to Varenhe he should have become a very successful businessman, where he occasionally saw his fellow at Friedrichshagen.

A SENATE CAUTION.

The Attitude on the Election Bill Considered.

WASHINGTON, July 10.—The Republican senators were in caucus this morning to discuss the order of business. The outcome was a decision to conclude the consideration of the pending shipping bill and then to take up the sundry civil bill. The speech shows that the majority of the republicans in formulating measures are considering the national election bill this session, but no decision was reached, as it was believed that before the matters above referred to the shipping bill and sundry civil bill were disposed of, the Democratic policy will be sufficiently revealed to guide the republicans in formulating measures.

One reason for the failure to reach a decision tonight was the wide divergence of views among the republicans. There was a decided majority for a federal election bill and it is said that no one strongly objected to it, but a fairly good number of the republicans are opposed to the subject. There was almost unanimity in the opinion that it would be absolutely necessary to adopt a closure rule in order to pass the bill. Senators Edmunds, Teller, and a few of the other old senators thought this would outweigh the benefit to come from the bill.

The action taken in regard to placing a county ticket in the field was welcomed, as it was generally supposed by politicians that local matters, aside from the election of a representative to the legislature, would not be considered by the Alliance.

NICHOLLS' VETO RIGHT DENIED.

BATON ROUGE, La., July 10.—At a late hour last night the house received a message from the senate returning the lottery bill and veto thereon in accordance with the report of the senate judiciary committee which was likewise transmitted. After some filibustering by the anti-reformers, the house passed the bill 22 to 19, with the senate in refusing to consider the governor's veto and denying his right to veto a constitutional measure.

ANOTHER CUT RATE.

KANSAS CITY, Mo., July 10.—All the St. Louis roads today announced a 40 cent rate to St. Louis and return, such a rate having been authorized by Chairman Goldard, of the Western States Passenger association. The rate was demanded by the Missouri Pacific as a protection against the \$16.70 round trip rate now in effect between this city and Chicago.

CONFESSED TO ROBBERIES.

SENECA, Mo., July 10.—A. Turlington, alias West, under sentence of death at Booneville, for the killing of Sheriff Cramer, of Cooper county, confessed on Tuesday last that he had participated in the Missouri, Kansas & Texas robbery at Prior creek, where \$1,500 was secured, and that he also helped to rob the Wells Fargo express of \$10,000 a few days later. One of his accomplices was W. E. Smith, who served two months in the Sedalia jail. They alone robbed the Missouri, Kansas & Texas train, but had accomplices in the other. To show that he was telling the truth, Turlington gave incidents and dates which corroborated his statement in every particular.

COFFEE MADE OF FLOUR.

IT IS MANUFACTURED EXTENSIVELY IN PHILADELPHIA.

It is a Base Impostion, but When Genuine Coffee Is Mixed with It The Result Can Be Sold at a Very Low Price. There Is a Penalty for the Manufacturer.

Is Philadelphia gaining reputation as the leading city of America in the manufacture of bogus coffee?

Telegrams and other information recently received seem to indicate that the city has gained that notoriety. Chicago and New York papers have been printing statements which have named Philadelphia as the place where large quantities of "coffee beans" are manufactured. The following is a telegram recently received from Indianapolis:

"The citizens and board of health are much exercised over a coffee fraud unearthed here and traced to a wholesale dealer who says he got from agent on Chestnut street, Philadelphia. The whole sale dealer showed this letter from the agent:

"Dear Sir—I send you by this mail a sample of imitation coffee. This is a manufactured bean, and is composed of flour. You can easily mix 15 per cent of this substitute in with genuine coffee that ranges in price from 30 to 32 1/2 cents, and it will improve the flavor of the same. It granulates the same as coffee. If you deal with us it will be in the most complete confidence. This 'S. B.' coffee (superior substitute) is packed in barrels, weight about 170 pounds to the barrel. By the use of our bean you can increase your profits to 15 cents per pound and improve the flavor. Try a sample barrel; price, 114 cents per barrel, ten days. No attention paid to postal cost."

In red ink was written: "Send shipping directions. I would not show samples even to employees."

A LITTLE DETECTIVE WORK.
Having learned from a leading coffee and spice dealer of this city that a coffee bean manufacturer of considerable size was in operation somewhere in North Philadelphia, a reporter started out disguised as a dealer from the northwest, where he sold coffee to the poorest class of Swedes and Poles. He learned that the coffee beans were being made each week in Philadelphia. Three or four different firms and one coffee roaster referred the "dealer from the northwest" to Wexelberger & Sauer, coffee roasters, within a stone's throw of Sedgwick's hat store, on Market street.

The
